Here's a school with A-1 ratings.  
It could win an Oscar, without too much waiting.  
The stars are the teams, the students and such.  
But, we can't leave out the teachers; they wouldn't  
like that too much!  
Who is the director, you may ask.  
That's Mr. Trammell; Boy what a task!  
We're made of courage, pure courage and heart,  
Even though some of us aren't too smart.  
We are the TRAILRIDERS, that's who we are.  
Who knows, maybe you are a star.  
Think of the times when we had such a blast,  
Nothing so great as getting out of class.  
KIOWA COWBOYS, that's the sign,  
And one I'm sure, that will never resign.  
A place with a heart one hundred percent pure,  
A place I'll love forever, I'm sure.

*Dandy Lee*  
*6<sup>th</sup>*

If the TRAILRIDERS made a movie,  
Who would be the star?  
Would it be a student  
Or someone from afar?

Would it be about a cook  
Or maybe even a teacher.  
Maybe John Wayne will  
Make it a double feature.

Would it be about sports  
Or some organization?  
It might even be a movie  
About education.

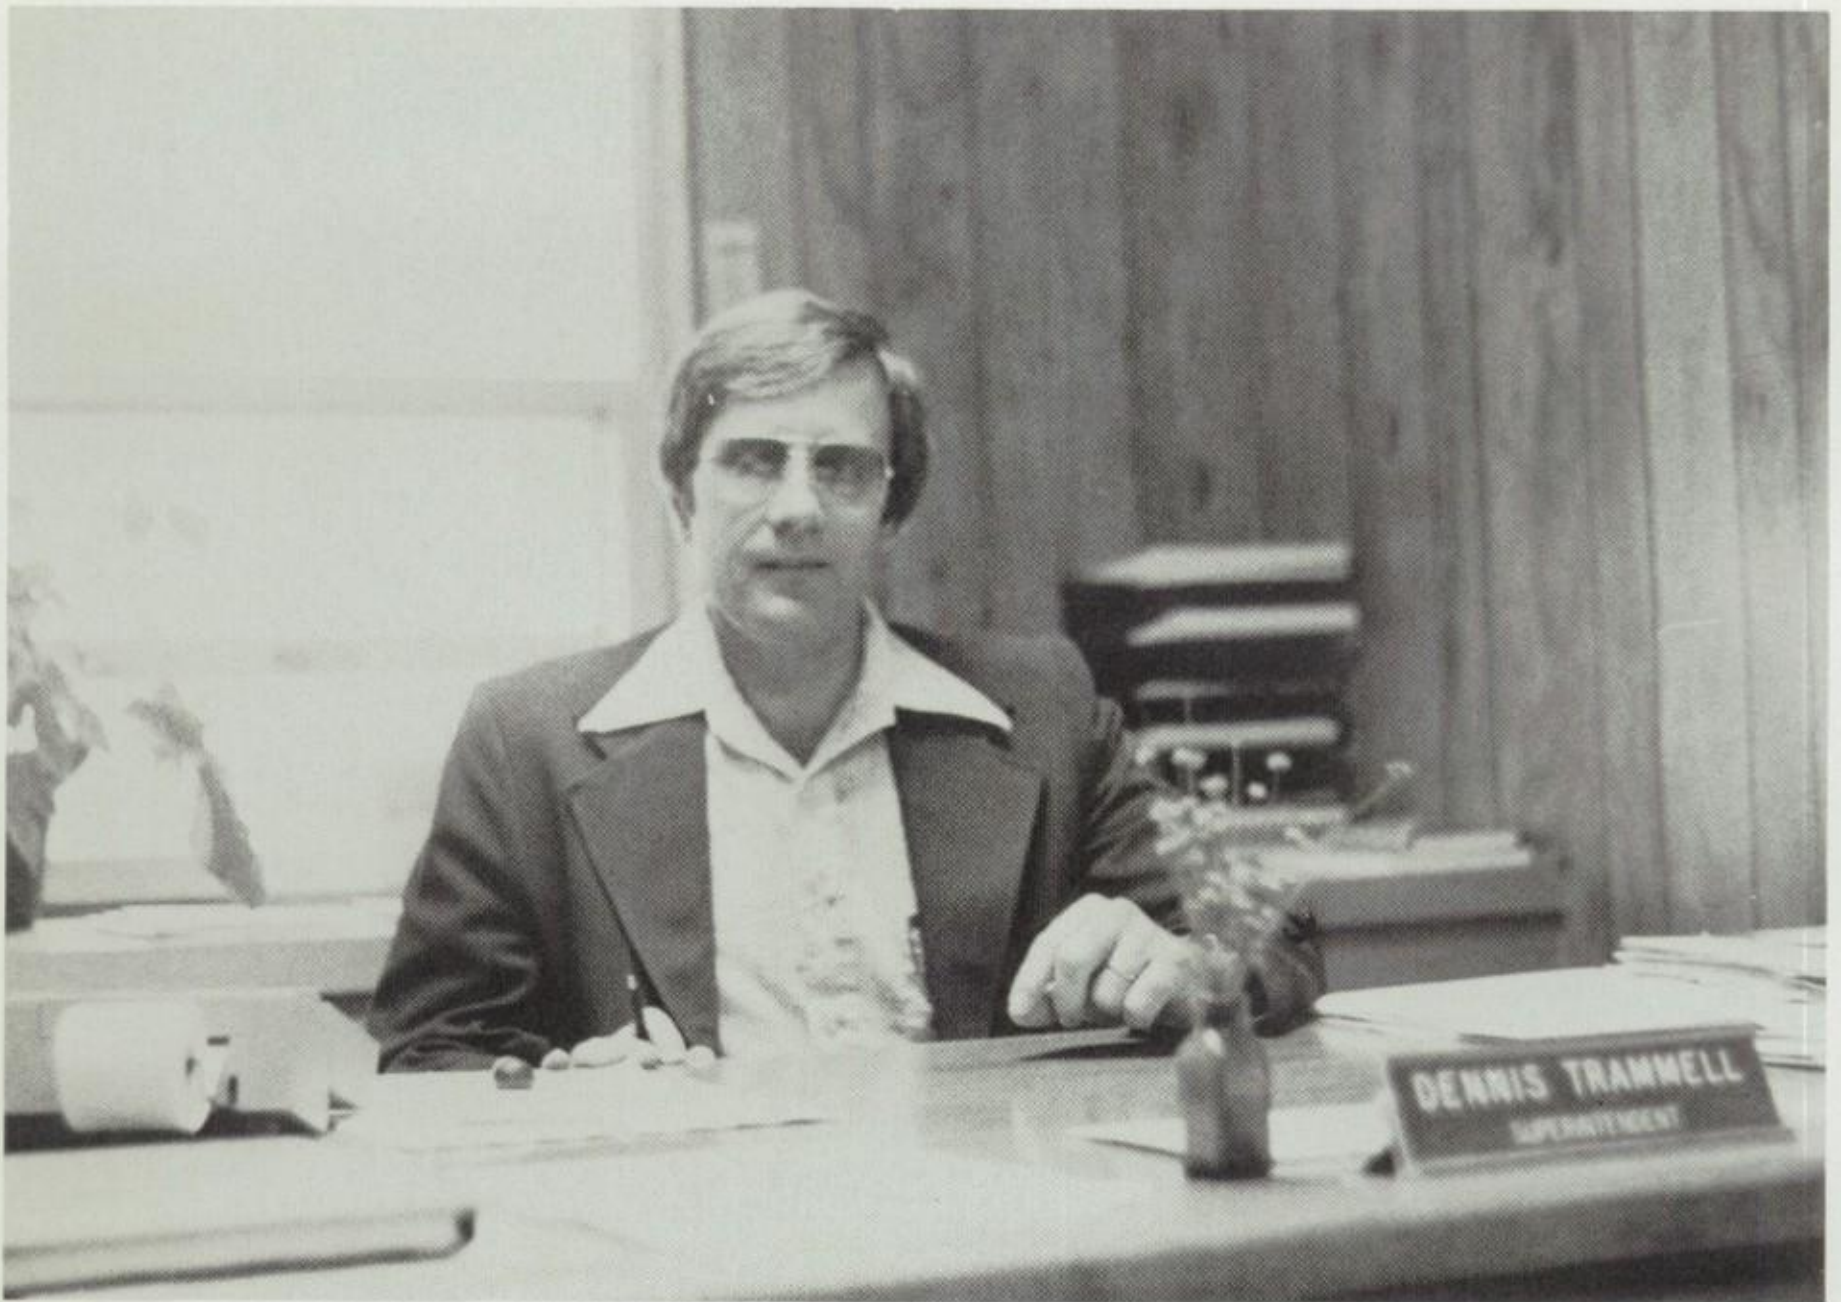

But the TRAILRIDERS is a book,  
And you are a star,

As long as you're in it -  
No matter who you are.

## DENNIS TRAMMELL, SUPERINTENDENT

To Kiowa Students

You're the Star at Kiowa School

You play a very important role in the Kiowa School System. You are a unique and special person. Of the approximately 4 billion people that inhabit the earth, and the 400 plus students at Kiowa, not one looks, thinks, or acts exactly like you.

The faculty of the Kiowa School System believes you have great potential and we accept our responsibility along with you to help you develop your talent to a level that will cause us to feel a warm sense of pride in our accomplishment.

The variety of roles you play in our school is very diversified. You may have the ability to excel in academic subjects, fine arts, or athletics and justly feel a deep sense of accomplishment.

The role you play depends to a great extent, on your self-concept or the way you view yourself. Some students have the special ability to be a friend to someone who needs one, and to display the fine qualities of being considerate and thoughtful and kind in their interaction with people.

Learning self-respect and respect for others is a necessary prerequisite to achieving success in any role that might be played.

By properly playing our roles and doing our best I'm sure the lime-light of success will spot you on center stage and you will bask in the exhilarating glow of your achievements.

Teachers' aids put the "move" in movie!

Kiowa School was "established" in 1872 in a boxcar to teach children of railroad workers who were building the M-K-T Railroad. School has been taught in various buildings including a log house.

We are presently in our 106th year of providing a quality educational program for the 400 plus students that live in our 240 sq. mile school district.

We believe that people are the most important resource of any area. It is the goal of the instructional staff and support personnel of Kiowa Public Schools to provide a meaningful school program in which each student will develop to his or her full potential.

Psssst! Russell!

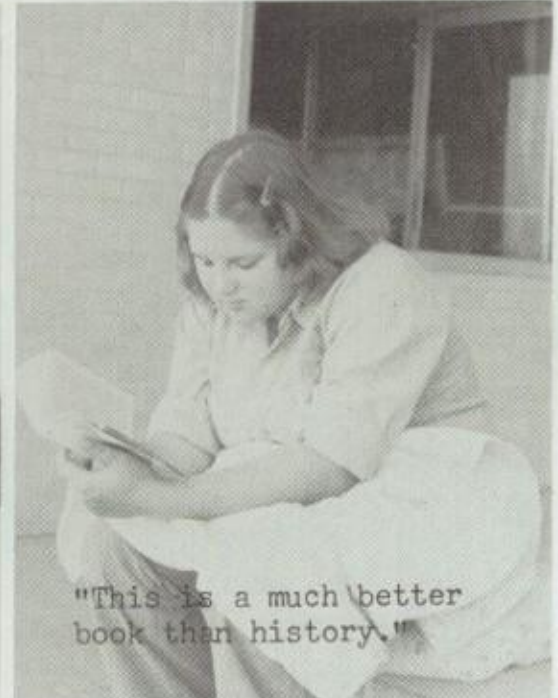

A pop quiz! But this isn't English class!

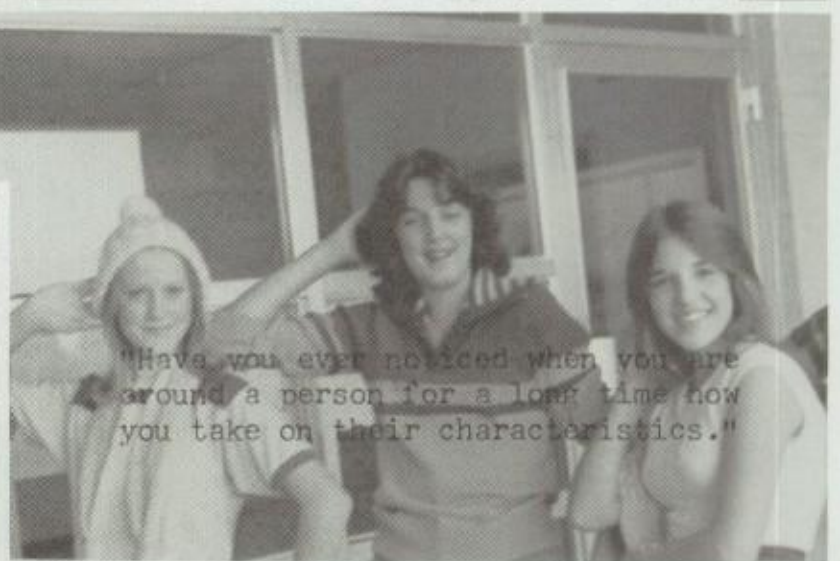

Here's where I learned to read Mother's mind. I can always tell when she's going to say no.

"Hey, don't hit me! I didn't know she was your sister, besides it was her idea."

"This is a much better book than history."

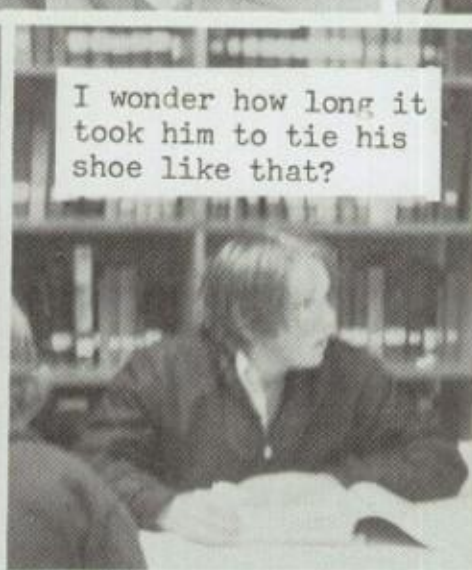

"Have you ever noticed when you are around a person for a long time how you take on their characteristics."

You think I look good now? Just wait till I open my eyes!

This is REALLY a John-John.

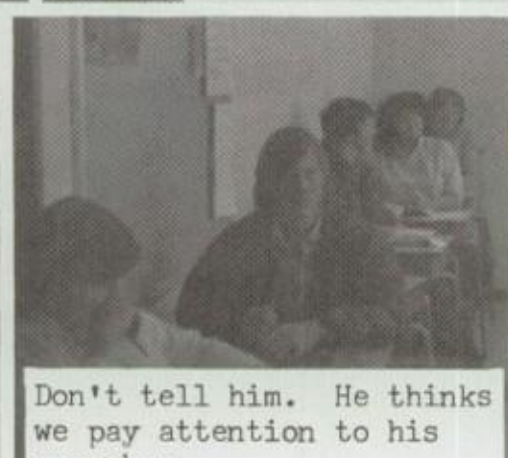

I wonder how long it took him to tie his shoe like that?

Daydreamer

Well, we can't stand here all day. Let's see what Mr. Rhyme has to say.

Don't tell him. He thinks we pay attention to his speeches.

It's easy. Just be careful to keep your balance.
